

# INCLUSION POLICY

Engage Enthuse Empower

Reviewed policy shared with staff on: Spring 2018

Policy to be reviewed again on: updated when necessary

Committee responsible for review: Learning and Achievement

## **Castilion Primary School**

### **INCLUSION POLICY**

#### **Rationale**

At Castilion, we are committed to giving all of our children every opportunity to achieve the highest of standards. We do this by taking account of pupils' varied life experiences and needs. We offer a broad and balanced curriculum and have high expectations for all children. The achievements, attitudes and well-being of all our children matter. This policy helps to ensure that this school promotes the individuality of all our children, irrespective of ethnicity, attainment, age, disability, gender or background.

At Castilion Primary School, we recognise value and celebrate the rich cultural diversity that exists in our school. We believe that effective learning takes place when children work in a purposeful and stimulating environment that supports a wide range of learning styles. Mutual respect between adults and children promotes excellent behaviour and well developed social skills.

We aim to cater for each individual, taking particular account of any specific needs or abilities. We endeavour to ensure that all our children fulfil their potential and, within this context, we emphasise health and safety, enjoyment and achievement and the beginnings of responsibility for themselves and others. These skills will be carried forward to the next phase of education and throughout life.

The whole school community is committed to a collective responsibility for the implementation of the values inherent in this statement.

This policy should be read in conjunction with: SEND policy, Local Offer 2015, Equalities Scheme and Action Plan and Accessibility Plan and the EAL policy.

#### **Aims**

Castilion is a fully inclusive school. We actively seek to remove the barriers to learning and participation that can hinder or exclude individual pupils, or groups of pupils. This means that equality of opportunity must be a reality for our children. We make this a reality through the attention that we pay to the different groups of children within our school:

- gender;
- disadvantaged pupils (Free School Meals and Ever6)
- minority ethnic and faith groups;
- children who need support to learn English as an additional language;
- children with special educational needs;
- children with disabilities or medical needs
- gifted and talented children;
- children who are at risk of disaffection or exclusion;
- travellers;
- asylum seekers.

## **Curriculum**

The National Curriculum is our starting point for planning a curriculum that meets the specific needs of individuals and groups of children. We meet these needs through:

- setting suitable learning challenges;
- responding to children's diverse learning needs;
- overcoming potential barriers to learning and assessment for individuals and groups of pupils, recognising these groups may be fluid and responding with flexibility;
- providing other curricular opportunities outside the National Curriculum to meet the needs of individuals or groups of children ( such as speech and language therapy)

We achieve educational inclusion by continually reviewing what we do, through asking ourselves these key questions:

- do all our children achieve their best?
- are there differences in the achievement of different groups of children?
- what are we doing for those children who we know are not achieving their best?
- are our actions effective?
- are we successful in promoting racial harmony and preparing pupils to live in a diverse society?

The data we gather annually, using the school's system of progress tracking, help us to review our children's progress against these criteria. We also monitor children's access to extra-curricular activities through the use of extensive provision maps.

## **Teaching and learning style**

We aim to give all our children the opportunity to succeed and reach the highest level of personal achievement. At the start of each year, the head and deputy set aspirational targets for all pupils. We analyse the attainment of different groups of pupils termly to ensure that all pupils are achieving as much as they can. We also make ongoing assessments of each child's progress. SLT and teachers use this information when planning their lessons and for interventions. It enables them to take into account the abilities of all their children. For some children, we use the programmes of study from earlier key stages. This enables some of our children to make progress in their own lessons, perhaps after significant amounts of time spent away from school.

When the attainment of a child falls significantly below the expected level, teachers enable the child to succeed by planning work that is in line with that child's individual needs. Individual education plans (IEPs) are implemented and targets set at a suitable level, including the use of P scales. Where the attainment of a child significantly exceeds the expected level of attainment, teachers use materials from a later key stage, or extend the breadth of work within the area or areas for which the child shows particular aptitude.

Castilion teachers provide quality first wave teaching to ensure all pupils make progress. We employ extra staff members who support disadvantaged pupils, gifted and talented pupils, and SEND and disabled pupils. These staff members include the 'Close the Gap' leader. These staff members work with pupils identified at Pupil Progress Reviews and they provide the SENCO and SLT with regular

feedback on pupil progress. Teachers are familiar with the equal opportunities legislation covering race, gender and disability.

Teachers ensure that all children:

- feel secure and know that their contributions are valued;
- appreciate and value the differences they see in others;
- take responsibility for their own actions;
- are taught in groupings that allow them all to experience success;
- use materials that reflect a range of social and cultural backgrounds, without stereotyping;
- have a common curriculum experience that allows for a range of different learning styles;
- have challenging targets that enable them to succeed;
- participate fully, regardless of disabilities or medical needs.

### **Children with disabilities**

Some children in our school have disabilities. We are committed to meeting the needs of these children, as we are to meeting the needs of all groups of children within our school. The school fully meets the requirements of the amended Disability Discrimination Acts that came into effect in 2010. All reasonable steps are taken to ensure that these children are not placed at a substantial disadvantage compared with non-disabled children. The Castilion Equality Scheme sets out how we put the DDA 2010 in to practice. We set aspirational objectives on our Equality Action Plan to ensure equality for all.

The school is committed to providing an environment that allows disabled children full access to all areas of learning. Our external classroom entrances are wide enough for wheelchair access, and the designated points of entry for our school also allow wheelchair access. Our Accessibility Plan identifies how we intend to increase the extent to which disabled pupils can take advantage of all that our school has to offer.

Teachers modify teaching and learning expectations as appropriate for children with disabilities. For example, they may give additional time to complete certain activities, or they may modify teaching materials. In their planning, teachers ensure that they give children with disabilities the opportunity to develop skills in practical aspects of the curriculum. We ensure disabled pupils are involved in school trips and write comprehensive individual risk assessments to support their safe inclusion.

Teachers ensure that the work undertaken by disabled children:

- takes account of their pace of learning and the equipment they use;
- takes account of the effort and concentration needed in oral work, or when using, for example, vision aids;
- is adapted or offers alternative activities in those subjects in which children are unable to manipulate tools or equipment, or use certain types of materials;
- allows opportunities for them to take part in educational visits and other activities linked to their studies;

- includes approaches that allow hearing-impaired children to learn about sound in science and music, and visually impaired children both to learn about light in science, and also to use visual resources and images both in art and design and in design and technology;
- uses assessment techniques that reflect their individual needs and abilities.

### **Disapplication and modification**

The school can, where necessary, modify or disapply the National Curriculum and its assessment arrangements. Our school policy is to do this only in exceptional circumstances. The school makes every effort to meet the learning needs of all its children, without recourse to disapplication or modification. We achieve this through greater differentiation of the child's work, or through the provision of additional learning resources. When necessary, we also support learning through appropriate external specialists. In such cases, teachers work closely with these specialists to support the child.

In exceptional circumstances, we may decide that modification or disapplication is the correct procedure to follow. We would ensure that every effort had been made to provide the necessary support from within the school's resources before considering such action.

Should we go ahead with modification or disapplication, we would do so through:

- section 364 of the Education Act 1996. This allows modification or disapplication of the National Curriculum, or elements of it, through a statement of special educational needs;
- section 365 of the Education Act 1996. This allows the temporary modification or disapplication of the National Curriculum, or elements of it.
- use of the DfE guidelines, updated annually.

### **Inclusion and racism**

The diversity of our society is addressed through our schemes of work, which reflect the programmes of study of the National Curriculum. Teachers are flexible in their planning and offer appropriate challenges to all pupils, regardless of ethnic or social background. All racist incidents are now recorded and reported to the governing body by the headteacher. The school contacts parents or carers of those pupils involved in racist incidents. See the Equality Scheme and Action Plan.

### **Monitoring and review**

The Head Teacher, Deputy Head and Assessment Leader will ensure this policy is implemented consistently throughout the school using strategies such as discussion with teachers, pupils and parents/carers, sampling pupils' books and reports, lesson observations, learning walks and sampling teachers' planning.

Senior Leaders and Subject Leaders will carry out quality assurance, assessment moderation, book and planning scrutinies as part of their monitoring process.
