

What is a Support Bubble?

If you live on your own

Or you are a single parent with children under 18

You can choose another household to join with. A household is a group of people who live in the same house

This is called a support bubble

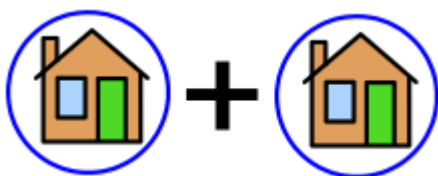

You can visit them in their house

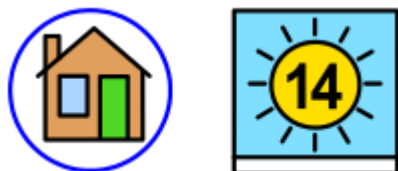

You can go closer than 2 metres

You can hug people in your support bubble

You can only join with one household in a support bubble. You cannot change to a different household

If anyone in your support bubble gets coronavirus symptoms, you need to stay at home for 14 days
